THE STATE PRESS.

The Blue Ridge Blade says Joe Turner's defeat is a blessing not to be too lightly valued. Eight years ago this man, says the Blade, was one of the most popular party leaders in the State; but his betrayal of the Confederacy in 1864 might have warned a less discerning constituency than the people of the Fourth District that he would betray the men who gave peace to Orange in sixty eight and nine or that he would cast off all party allegiance, whenever he could see his way clear to profitable place.

His defeat, however, carries with it one blessing, which we think is too lightly valued. It diminishes vastly his power for evil in the present Legislature. Had he not made the race for Congress he might have injured the Democracy while professing to support it.

Prof. Hyams, the discoverer, recently, of the very rare plant called Thortia Galicifolia, writes in the Roan Mountain Republican that in his trips through the mountains of Western North Carolina he has found several hundred plants not accredited to North Carolina by any of the standard Botanical works. He wonders that such eminent botanists as Curtis, Darby Porcher and Chapman should have overlooked them. He believes that the Flora of the State embraces many other valuable plants unknown by any of the writers on Southern botany. "The true flora of the State will not be known until the State takes some action in the matter to procure the treasures, of course it will take several years to complete such a list, but it will prove invaluable: even at considerable cost, it should be complete. The plants of the East, West, North and South can be found in North Carolina."

The antique town of Lincolnton may have no geniuses like Edison, but has, the News says, plenty of young, energetic, brave-hearted boys who do their duty faithfully and uncomplainingly, and who, having no hope or chance of collegiate education, want a real library, open to the public, where whoever is athirst can come and drink freely of the Pierian spring.

It is a pardonable enthusiasm the Charlotte people feel in the success of the Carolina Fair. It was inaugurated and conducted, the Observer says, on a modest scale, but the proportions which it assumed surprised its warmest friends. The future is bright. The first exhibition paid the Association out of debt, and nothing is needed except management of ordinary judiciousness to implant their enterprise firmly in the confidence and good will of the people.

As the Piedmont Press earnestly remarks, the election of Lt. Gov. Armfield in the 7th District is a matter of congratulation. A great lawyer, an experienced legislator, a tried patriot, a man with a great head and big heart. Such men will be in demand in the next Congress.

The Chapel Hill Ledger goes off in this lugubrious strain, but carefuly abstains from calling names:

A man of honor! What a glorious title that is! Who would not rather have it than any that kings can bestow? He who merits it wears a jewel within his soul, and needs none upon his bosom. Heaven be thanked, that amid the rascals and tricksters of this world, there are a few such men left.

With a little experience Solicitor Ferguson, of the Buncombe circuit, will, the Citizen says, be without a superior in the State.

THE solid and sensible Goldsboro Messenger, advocates home industry. It is emphatically true, as the Messenger says, "nothing is more calculated to build up a community than well conducted and well sustained manufacturing establishments, be they machine shops, foundries, wood shops, buggy factories, or even shoe shops. These ought always be encouraged and protected against foreign goods in the line of their manufacture; particularly those which are worthy and on whom are depended a large number of skilled mechanics and their families. To be plain we hardly think it right that itinerant buggy or machine peddlers, or indeed itinerants of any sort, should be encouraged to the injury of our home establishments.

ONE Mr. Murch, of Massachusetts, is the clear product of the "National" hullabaloo. The "National" party which was to sweep instead of being swept out of the country, elected only Mr. Murch, and even in his election the democrats co-operated.

Who Shall Have Charge of the Red Men.

By Telegraph to the News.

WASHINGTON, Nov. 29.—The Secretary of the Interior has written to the Secretary of War, taking earnest exceptions to the recent report of General Sheridan, in which the latter mentions the Indian situation as unsatisfactory, with additional comments upon the management of the Congressional appropriations by the employees of Indian Bureaus. Mr. Schurz hopes that General Sheridan will communicate any facts in his possession which will warrant the charges made by that officer. Schurz says he makes this request in view of the fact that certain military officers seem to have fallen into a habit of indulging officially and publicly in general reflections on the Indian service, without taking the trouble of substantiating them with such statements in detail as would facilitate the discovery and correction of abuses.

The Eastern Complications.

By Cable to the News.

LONDON, Nov. 19.—Prince Dondoukoff Korsakoff, Governor of Bulgaria, has arrived at Odessa, on his way to Livadia, to report upon the state of affairs in Turkey. The Vienna correspondent of the Times thinks that in view of the fact that Prince Korsakoff has expressed his opposition to the Treaty of Berlin, the appointment of another person as Governor of Bulgaria is probable.

The Bucharest newspapers publish particulars of the Russian demands, which, if correct, materially detract from their significance. They seem only to have asked increased facilities for inter-communication during the term of occupation of Bulgaria. Nevertheless, according to the Roumania Libera, the Bucharest Government has already declined the Russian proposals, declaring that the existing facilities are all that Russia needs according to the Treaty of Berlin and the Russo-Roumanian convention.

CONSTANTINOPLE, Nov. 19.—The modifications made by the International Roumelian commission in the Turkish project for organic reforms, have been accepted by the Porte. Prominently among them is the appointment of a permanent commission of seven members to be elected by the Roumelian national assembly.

Georgia's Gallant Gordon.

By Telegraph to the News,

ATLANTA, Nov., 19.—In the senatorial election to-day Gen. Gordon was almost unanimously elected and without a convention of the Houses; carrying every vote in the Senate and all but five in the House of Representatives and strenuous efforts were made to organize an opposition, but without success. No man in the Senate could be found who would numinate another candidate and four of the five voting against him in the House were Independents from the 7th Congressional District. This is considered the greatest political triumph ever achieved in Georgia.

The Pope Congratulates King Humbert.

By Cable to the News.

LONDON, Nov., 19.—The corps of veterans which suffered the loss of two men by the explosion of a bomb thrown into their ranks during a procession in Florence on the celebration of King Humbert's escape from an assassin, were similarly attacked, while returning from the funeral procession in honor of King Victor Emanuel. The following is the Pope's telegram to King Humbert. "Having heard of the deplorable attempt made against the life of your majesty, I express to you my extreme concern and at the same time my congratulations that you have escaped this grave danger. I pray God for the preservation of your majesty's health. (signed.) LEO."

Indications of Important Changes in Turkish Policy.

By Cable to the News.

LONDON, Nov., 19.—Said Pasha, formerly First Secretary to the Sultan, and made Governor of the province of Broussa, has been recalled to Constantinople, and it is rumored, will assume the ministry of public works. This is an important indication of the supremacy of English influence in Turkish affairs. Said Pasha was sent into a species of honorable exile at Broussa on account of his friendship for Mr. Layard, the British ambassador to Constantinople and his strong English sympathies, which were so well known that he was was nick-named "The Englishman."

A Stage Joke on Booth.

Boston Gazette.

The other night, during the performance of Hamlet, at the Fifth Avenue theatre, the graveyard scene was in progress, and every one was wrapped in melancholy. Hamlet and Horatio stood in the gloomy church-yard where the grave-diggers were at work. The first grave digger threw up a shovelful of bones. "Whose skull is that?" said Hamlet, in a sepulchral voice. "Stewart's! I claim the reward!" said the grave digger in an aside. The reply was so unexpected that Mr. Booth, old stager as he is, came very near laughing. Horatio, who had not so much self-control, had to go up the stage, and the second grave digger hid behind the pile of earth till he could recover from the effects.

RUTHERFORD COUNTY.

Session of the Superior Court--Transfer of Cases.

Correspondence of the News.

RUTHERFORD, Nov. 16, 1878.

The regular term of the Superior Court for this county opened Monday morning, His Honor Judge Schenck presiding.

The court has been one of more than ordinary inserest. There were a good many cases on the Criminal Docket, but for some reason or other, not many of the prosecuted parties were taken. Two negroes were sent to the Penitentiary for the lowest of all thefts, stealing sheep, to serve a term of one year each. One other negro was sentenced to five years in the chain gang for obtained goods by means of a forged order.

The trial of Doggett and Jeff. Thorne for the killing of Lafayette Hamrick was appointed for Friday of this court, but removed to Polk county and set for trial, on Tuesday of next week. The prisoners are both boys, neither of them seventeen years old.

Some important cases on the Civil Docket were disposed of, and there are a good many that were not reached, as well as a number that were continued. Judge Schenck was elected to his present position in this District and has held our court several times before this term, and has invariably given satisfaction in that position, but for the fairness of his charges, and his patience, and readiness to comprehend points suggested by members of the bar we think we may safely say there are few such judges.

For a rare thing, the whole week of Rutherford court has been fair, with the exception of to-day, the last, and we can only hope that next week may be as pleasant as the past.

MOUNTAINEER.

Yellow Fever.

The members of the national yellow fever commission in their report will advocate a system of national quarantine under the direction of the United States Government. They are convinced from their investigations that yellow fever is not indigenous in the atmosphere in any part of the United States, and that in New Orleans it was caused by importation. There is no doubt that it was carried from New Orleans to every other point. The disease does not seem to be prevented from prevailing epidemically either by distance from the sea or distance above the sea level, as, under favorable circumstances for its dissemination, it might prevail in any part of the United States. Heretofore, sea-board quarantines, as far as the Gulf of Mexico is concerned, and making exceptions this year in the case of Texas, have been inadequate to prevent the introduction of the disease, The difficulties of inland quarantine are so many and so great in the cases of towns on the Mississippi river or in the cases of towns having extensive railroad connections, as to be almost practically impossible. With this view of the facts, the commission are of the opinion that the only reasonable protection to keep yellow fever from this country is a system of strict national quarantine.

Statues from Living Figures.

Paris Correspondence of the Boston Advertiser.

Before leaving the subject of statues I must speak of an alcove in the Russian section known to but very few, which fact is much to be regretted, as it contains two recumbent statues (in plaster) of a beautiful woman, which would not be remarkable were they taken from a dead body, but Dr. Levittux of Varsona molded them upon a living form, and pretends he has invented a way by which any form, in any position, can be accurately taken. The result of these casts is marvelous. Every vein a little prominent, every line of the foot, the hand, the throat, even the different qualities of the skin on different parts of the body, are so admirably taken that, with the aid of a little rose-colored light artistically thrown upon these statues, one is tempted to believe they breathe. I am told the operation is dangerous. Chloroform is administered, so as almost to suspend the beating of the heart, and I doubt if in all countries this branch of art would be tolerated.

Methodist Colored Conference.

Hillsboro Recorder.

This body, representing the largest colored organization of Christians in the world, was in session during the past week, and did not adjourn until Tuesday of the present week. It was largely attended both by clergy and laity, fifty-five of the former being present. Bishop John M. Brown of Washington city, presided. Services were regularly held in the colored church, and on Sunday, the Presbyterian and Methodist churches were given up to the use of the Conference. On Sunday night, Bishop Brown preached to a white congregation in the Methodist church.

Judge Dyer, of the United States Court, at Milwaukee, rendered an important decision in a trade-mark case on the twelfth instant, Lerdersdorf & Co, tobacconists, desired to enjoin Flint & Co., from the use of certain labels. The defendants demurred, and held that the court had no jurisdiction. This raised the question of the constitutional power of Congress to legislate on the subject. It was decided that the constitutionality of the trade-mark statute cannot be sustained under the clause which gives to Congress the power to regulate commerce among the several States, nor under any of the provisions of the constitution which prescribes the legislative power of Congress. The court, therefore, held that it had no jurisdiction to entertain a controversy between citizens of the same State, and sustained the demurrer.

A Public Convenience.

The new plan of registering third-clas mail matter has proved successful. extending the trade of retail merchants in the larger cities and giving the customer in the towns and villages nearly equal advantages in trade with city people. Thep are cheaper and quite as rapid in delivery as the express companies, and the merchants can almost afford to prepay the postage when a silk dress can be registered at the post-office for 25 cents.

Gen. Grant will not write a book, and, another thing—he refuses of late to sign his name to patent pill and stomach bitters certificates. He hates all literary work.

Interesting to Persons Contemplating Death.

Detroit Free Press.

A Chicago man has done it. He is resolved no body-snatcher shall have his "remains." He has constructed an immense stone sarcophagus, which will defy the wiles of a Cincinnati medical professor. It is a heavy stone portable tomb, that can be placed in any desirable position about the premises, in vaults, or under ground. It is equally suitable for placement above ground or below. It is so heavy that it cannot be readily transported, it being necessary to move it by means of a small derrick. It is so constructed that it will resist the action of water, acids, etc., and when hermetically sealed will, it is claimed, preserve the body for a number of years. A Detroit man has a device which he thinks is a little ahead of the Chicago party's plan. He would have an electric wire run from the final resting place to the police station, where it would ring an alarm if touched by any one near the grave. It would no doubt be interesting to sit at police headquarters and hear the sleepy sergeant remark as the alarm rings; "John, go and see what's the matter with No. 97, fourth row back:" or, "There now, some one's fooling with Old Bones' tomb again. Sim, step up and see about it." The Ohio man takes the present occasion to call attention to the patent explosive dynamite grave, which is warranted to blow the desecrator into the next county. Old Dr. Le Moyne rises to state that cremation is the only remedy for this sort of thing. His furnace is open at lowest cash rates, discount to large families and schools.

Redemption of National Bank Notes.

Secretary Sherman has written the following reply to a Connecticut bank officer:

TREASURY DEPARTMENT,
Office of the Secretary,
WASHINGTON, Oct. 16, 1878.

President Farmers' and Mechanics' National Bank, Hartford, Conn.:

SIR: In reply to your letter of the 29th ult., requesting to be informed whether national banks will be required after Jan. 1, 1879, when the redemption act goes into effect, to redeem their circulation in coin, I have to inform you that there is at present no law requiring national banks, other than gold banks, to redeem their circulation in coin. Under existing laws, national banks are required to deposit with the Treasurer of the United States lawful money of the United States sufficient to redeem their circulation, and the Treasurer is required to redeem said circulation in United States notes. See section 3. act of Congress, approved June 20, 1874; also sections 5,222, 5,224, and 5,226 of the Revised Statutes of the United States. Very respectfully,

JOHN SHERMAN, Secretary.

A Natural Telephone.

Inyo, (Cal.) Independent.

On the authority of Col Tolcott, who vouches for the truth of the matter, there is a certain point on a ridge high up on Kearsage Mountain where can be heard the rumble of trains on the Southern Pacific Railroad as they cross the range to the west of Mohave, 140 miles distant. There is a regular daily train passing at 10:30 o'clock, and upon reaching the place at this hour the noise of the train is heard as stated. It is a curious thing in nature, but scarcely more wonderful than some of the mountain echoes we read of, nor more incomprehensible than late achievements of science in telephones, phonographs, and megaphones, possibly involving the same principle of conducting sound through the air or solids.

The Greatest Feat on Record.

N. Y. Times.

The walking feat accomplished by the French peddler, Campana, in Bridgeport last week, is calculated to make us revise all our notions of human endurance. This volunteer "champion," suffering from serious bodily ailment and injury, without training, and with small hope of reward, walked five hundred and twenty-one miles and fifty-four feet in two hours and twenty minutes under six days. His ring was of the worst, long and narrow, with sharp turns, the floor was slippery and yielding, and the air was stifling, the walker's diet was meagre, and yet he managed to outdo the greatest exploit yet accomplished by a trained man for a large prize, under the most favorable circumstances. It is pleasing to know that the plucky fellow is a man of good character not unknown to local fame for generous courage in rescuing persons from various dangers.

Not an Arduous Task.

Courier-Journal.

The Marquis of Lorne and his wife, Her Royal Highness Louise Caroline Alberta, left Liverpool for the Dominion, the scene of the Marquis' future viceroyal labors. These labors, it is generally conceded, will be those incident to the thrilling business of leading and giving tone to Canadian society at the Governor General's palace at Ottawa. The duties of Lorne and Louise, according to the London World, will be purely ornamental, and the Earl of Beaconsfield doubtless thinks the Canadians should be profoundly grateful and more intensely loyal from the fact of having a daughter of their Queen to preside over the fashionable destinies of the Dominion. Great preparations are in progress in Canada for the reception of the new Governor General.

The Afghan War.

All camels arriving at Quettah are detained to be used in an advance by the British troops, if necessary, and all officers on leave have been finally recalled. The commander-in-chief, who is at Rawul Pindee, appears to be certain that hostilities will begin next Wednesday. The ameer of Afghanistan has withdrawn two regiments from Candahar, and ordered the governor of the Pisheen valley, near Quettah, not to resist the British advance.

A Bladen correspondent writes the Raleigh *Observer* that on the night of the 8th inst., a negro cabin on the plantation of Mr. T. C. Whitted, three miles from Elizabethton, the county seat, occupied by a negro man named Haywood Smith and family, was burned, together with four children, an infant and three larger ones, the oldest about six years of age. The mother and father had gone from home to sit up with an old darkey who was sick. It is supposed they locked the children up when they left home.

A New Counterfeit.

Counterfeit copper cents have been put in circulation. The new coins are a first-class imitation of a small cent of the issue of 1863, and are perfect with the exception that the "head side" bears thirteen stars in place of the words "United States of America," The coins are not molded, but are pressed out with a lever die, and it is thought that they are not of copper but of the glass and metal mixture, with a copper wash. In the upper portion of the wreath which surrounds the words "one cent," is stamped in small letters the word "not," so that the face reads "not one cent." This, however, would not be discovered except by a close observer. The coin is well calculated to deceive, and it remains to be seen whether they get into extensive circulation. Of all the coins we use, the cent is the least liable to be looked at or noticed, and it may be that some clever scoundrel has figured out a road to fortune by counterfeiting them in this manner and thus escaping conviction by pointing to the word "not" on the face of the coin.

IGNORANCE.—We heard of one man last week, who declined to vote for Maj. Yeates upon the plea, that he—the Major—got an appropriation from Congress and had the sand shoals below Washington removed from the river, and thereby caused tar and turpentine to decline in price. The density of some people's ignorance is really sublime. Now this fellow holds in utter contempt such a thing as education as one of the frivolities of life. There is nothing that would afford him more pleasure than the burning of a school house. A trip to this part of the moral vineyard would pay Jesse Holmes,—*Washington Press.*

The Oxford *Torchlight* says: Monday two weeks since Mrs. Paschal Hardcastle, a widow lady living in Dutchville township, mysteriously disappeared during the night, leaving her family of small children. Sharp competition is the order of the day, among the first class hotels in New York. With one or two exceptions, they are trying to keep their old trade while adhering to their previous high rates. The Grand Central has reaped much benefit from this, by quietly "cutting" the rates from one to two dollars per day.

Quite a Mistake.

We said in yesterday's paper that "all the grocers in town say their customers will not use any other Baking Powder but Jones' Unrivalled." This was quite a mistake, as the Patapsco Baking Powder has a great reputation here, and nearly every grocer in town keeps it in stock, and the demand for it is daily increasing. DAILY NEWS

WEDNESDAY.....NOVEMBER, 20 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

A REASON why Senator Merrimon cannot be the Democratic nominee is, that he has never said he would go into caucus. He asserts that he was not a "bolter" in 1872, because "I refused to go into or be bound by the caucus"

A COMMUNICATION urging the nomination of Senator Merrimon is respectfully declined. When he declares, unqualifiedly, that he will abide the action of the Democratic caucus, the NEWS will then permit the discussion of his claims in its columns.

THE editor is informed by Hon. Thos L. Clingman that the statement made in Sunday's NEWS, to the effect that he was not a candidate for the United States Senate, is erroneous. The correction is cheerfully made. Under no circumstances would we do Gen. Clingman injustice.

OCCASIONALLY a solid chunck of truth finds its way into the newspapers. Here is an instance. Washington correspondent Courier-Journal writes about Washington journalism: "This city is infested by some of the lowest bummers of both sexes." Few there be who will take issue with the genial and talented "Fay."

THE war between the committee on Indian Affairs and the Indian Ring is to be fought over again this winter. Under the intrepid generalship of Gen. Scales, the able chairman of the committee, this corrupt and powerful Ring was almost vanquished at the last session of Cougress. Congressmen Boone and Hooker, members of the committee, were appointed to investigate the subject of transferring the Indian Bureau to the War Department. They will make a strong report urging the transfer. They will be sustained by Gen. Sheridan, who says that by placing the Indians under control of the War Department the annual saving will be not less than $8,000,000, or, in other words, instead of paying from $5,000,000 to $8,000,000 out of the Treasury, with the certainty that nearly fifty per cent. of the money will be stolen, an annual appropriation of $3,000,000 will be ample, and will be used for the Indians, and not for rings of contractors and agents and traders. Gen. Gibbon adds his testimony. He says: The average Indian agent, intent upon the spiritual welfare of the red man, desirous of elevating his soul and achieving what has never yet been reached in a single generation—making a civilized man of him—too frequently neglects his bodily wants, and while the agent is preparing him for heaven, as he thinks, is actually making a hell for him on earth by leaving him unclothed and unfed, while but too frequently the price of his clothing and food is put into the agent's pocket. Under the total lack of system in the Indian department the responsibility is so loose and fraud is so easy that the wonder is not that peculation does occur, but that it does not occur in all cases."

It is evidently about time that this Indian Bureau humbug should be abolished. It has been a curse to the Indian and a disgrace to the Government.

O'Hara Contests.

As intimated by the News a few days ago O'Hara will contest the election in the Second District. From the Goldsboro Messenger we learn that legal proceedings have already been instituted. Application has been made to Judge Seymour for a mandamus against the Board of Canvassers of Halifax and Edgecombe. The matter is set for hearing at New Berne on the 23rd. Judge Howard, Fred Phillips, and W. H. Day appear for the contestant. Hon. W. T. Dortch & Son for the board of canvassers. The question involved is a legal question. Whether County Canvassers had the right to throw out certain precinct returns because of the informalities upon which they were rejected. These informalities were that the poll holders were either not sworn at all or not sworn in conformity to the election law. In one Edgecombe precinct they were sworn by a Nash county magistrate, in another by a justice of the Inferior Court who was not a magistrate, in another by registrar who was not a magistrate, and in other instances they were not sworn at all. The law says:

"The said Judges of election shall attend at the places for which they were severally appointed, on the day of election, and they, together with the registrar for such precinct or township, who shall attend with the registration books, after being duly sworn by some justice of the peace, or other person authorized to administer oaths, etc."

There would seem to be no difficulty in interpreting this law, and the County Canvassers no doubt construed it correctly.

The question then arises as to the duties and powers of the Board of Canvassers. There is no doubt that the law confers full power upon the Board of Canvassers "to open, estimate and canvass the returns and make abstracts," and it became then clearly the duty of the canvassers to throw out all votes not cast in conformity to law, where such uniformality was brought to the attention of the Board. That some such a body is necessary for the protection of the legal voter, and as a check upon fraud which formerly prevailed in many of the Republican counties in this State, no one can deny; and it is clearly the intention of the present election law that the County Canvassing Board shall exercise such authority, and their action would seem final and conclusive, as much so as was considered the work of the "Louisiana Returning Board." There can be no going behind the returns. The Legislature has seen proper to lodge the power to decide who has or has not been elected in the County Canvassers.

POLITICAL.

We see that Congressman Felton and Ben Hill, of Ga., are mighty thick. Last winter Felton thought Hill was a —— well—— What queer people are politicians.

The prominence given to Congressman Springer's notions is a fresh illustration of what big men newspapers can manufacture out of small politicians. However, Mr. Springer is right in his speculations about the result of the election: (1) a lack of Democratic votes, (2) a lack of Democratic votes, (3) a lack of Democratic votes &c." In forecasting the Presidential election this voluble Congressman says the Democrats must nominate a candidate for President who can carry Ohio, Indiana and Illinois. These three states, the solid South, and Oregon will cast 195 electoral votes, ten more than a majority in the electoral college. We cannot rely on New York, Connecticut, and New Jersey. The old combination that secured Tilden's nomination is broken. The combined opposition in Ohio, Indiana and Illinois will have a majority in each State, of 44,000 in Ohio, 55,000 in Indiana, and at least 25,000 in Illinois, as shown by the fall elections. This is the natural division of politics in the country—south and west united—a combination that subserves both local interests and general welfare."

That most progressive and Bohemian of Southern journals, the Courier Journal, vindicates the "solid" South. The South is "solid," it says, in its own defense. The Republican leaders would have the North "solid" in continued pursuit and prosecution of the South. At this rate we should never have any peace, never have any sectional repose, never have any National prosperity and glory in which all might share; but we should go on forever, criminating and recriminating, steadily impairing the public credit, to wind up ultimately in bankruptcy, repudiation, anarchy and despotism. To this feast the sectional policy of the Republicans invites us.

A currency as solid as the solid South.

There was a time when the colored vote could be counted on as solid for Republicanism, but that time is past. The Southern negro has become experienced in the ways of the politicians, and the most intelligent of his race clearly perceive that all their interests, material as well as political, are bound up with the interests of the whites, and they refuse to be controlled as they have been controlled.

Gen. Joe Johnston talks like a man. "The South is now as close a part of the Union as is New England. Virginia has the same interest in the country as Massachusetts, and her Representatives, and the Representatives of the South, will be found to be as active in support of all measures tending to the general good of all sections of the country as the gentlemen from Maine or Vermont."

VEGETINE

will Prevent and Cure

PARALYSIS.

ENJOYED A GOOD NIGHT'S REST.

SO. LAWRENCE, MASS., April 30, 1877.

MR. H. R. STEVENS:—

Sir:—some five years ago I commenced taking Vegetine. At that time I had had a shock of Paralysis, and could not walk across the room without assistance. I found great relief from it at first, but discontinued the use of it again, and am now able to do my own work, and am washing to-day. I had taken large quantities of morphine, and was unable to sleep. I have found Vegetine to be a great quieter of the nerves, and after taking it have been able to enjoy a good night's rest. I believe it to be a good medicine, and cheerfully recommend it to others.

A. S. ROBERTS,
No. 1 Kingston Court, Lawrence, Mass

Nervousness, and all derangements of the nervous system are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine. It is a nerve medicine, and possesses a controlling power over the nervous system.

I Have Seen the Remedy Tried, and Know it is Good.

NEWPORT, KY., April 27, 1877.

H. R. STEVENS, Boston Mass.:—

Sir: Having sold and recommended your medicines for the last three years, perhaps you would ask why I should recommend them. I will answer, by saying, that I saw such beneficial results in a young friend who has been afflicted with a disease for two years, which was brought on by his own imprudence; and he had taken but one bottle when it showed its power to successfully fight the evil, so that I have always recommended it to young friends with bad blood. If you wish to use this as reference, why, I say you can do so, as I have seen the remedy tried and know it is good

Remain, yours very respectfully,
G. M. MILLER,
P. O. Box 478 Newport, Ky.

VEGETINE.—For eradicating all impurities of the blood from the system it has no equal. It has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

WILL CURE DROPSY AND DYSPEPSIA

WALNUT HILLS, April 16, 1877.

H. R. STEVENS, ESQ.:—

I have much pleasure in informing you that, after seeing the perfect cure of a three-years old case of Dropsy by a friend of mine, I tried to get cured of an old trouble of mine, Dyspepsia. The use of four bottles of Vegetine, according to your directions was a great success, and I am free of my old enemy. The use of your Vegetine has effected a perfect cure.

Respectfully yours,
L. W. DAVIDSON,
Walnut Hills, Cincinnati, O.

VEGETINE.—It extends its influence into every part of the human organization, commencing with its foundation; correcting diseased action, and restoring vital powers, creating a healthy formation and purification of the blood, driving out disease, and leaving Nature to perform its allotted task.

HOME REMEDY.

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel. He had been to the Hot Springs in Arkansas, and from there he went to Kittrell Springs. Nothing did him any good. At Kittrells they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and added if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless the Scrofulous Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of lasting benefit to my son, who was troubled with 27 running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully,

A. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

MOORESVILLE, IREDELL Co., N. C.

Being desirous of adding my testimonial to others, concerning the merits of Mrs Joe Person's Remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other Remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs Person's Remedy I was very weak, complection sallow, and now I am WELL,

Respectfully your friend,

MRS. B. T. BROWN.

Sept. 26, 1878,

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all that is within my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any signs of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier. It is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 12, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years. It has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except at out two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 20 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend it to any one suffering with heart disease, to try your medicine. As a tonic and Alterative, I do not think it has any superior. I have been using all the most powerful alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every medicine needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

J. H. SUTTLE, Box 141.

Distillers on Trial.

James Sorrell and John P. Sorrell, residents of Cedar Fork township, this county, were before U. S. Commissioner Purnell yesterday, charged with distilling and retailing brandy without license. The warrant for distilling was dismissed, but on the retailing charge both were held for appearance to-day, when the case will be tried.

Pamlico Heard From.

This county was published as having given Martin a majority over Yeates. An indignant native writes that the News erred. He says: "Please don't slander our county any more by giving a majority of her votes to Martin. Yeates got 91 majority. Please note the correction in the News, and never again put Pamlico down as giving a Radical majority."

T. Robert Jenkins & Son.

Elsewhere appears the advertisement of this house, which has a reputation in its line second to none in the country. The firm are known everywhere as reliable packers and shippers of bulk meats. These they advertise, and also their prime lard oil, whose purity is guaranteed. No commendation of the house is needed, since its merits are well known to dealers here.

Dr. Thomas F. Wood.

The only North Carolina delegate to the Public Health Association, which began its session yesterday in Richmond, is Dr. Thos. F. Wood, of Wilmington. He is Secretary of the State Board of Health and Surgeon in charge of the U. S. Hospital at Wilmington. Dr. Wood stands high in the ranks of his profession.

In Prospect u.

Mr. James A. Robinson, who was for some time connected with the Oxford Torchlight, was in the city yesterday. He was on his way to Winston, where he intends soon to begin the publication of a weekly paper, to be called the "Leader." He is a young man of much enterprise and proposes to be at the same time editor, publisher and printer of his journal.

Jordan, of Iredell county, yesterday brought down and delivered to the authorities of the State Penitentiary three negro convicts, all sent up for the African's usual crime, larceny. Their names and terms of sentence are Henry Johnson, 5 years; George Williams, 3 years; Fanny Kirder, 1 year. One of the men is an old offender, having before served out a term.

Attention, Teachers.

By request of the North Carolina Teacher's Association there will be held in Smithfield a meeting of the teachers of Johnston county on the first Saturday in December 1878. Every teacher in the county is respectfully invited to be present as business of importance will claim their attention. This comes from B. W. Thatcher, assistant Secretary of the N. C. T. A.

To Delinquents.

The Register of Deeds would remind the registrars in the townships of Little River and Oak Grove and of the precinct of Forestville, that the registration and poll books used at those places in the late election have not been returned to his office. The law requires that these books be deposited with that official immediately after every election.

Street Work.

The city street gang are at work on New Berne avenue, a thoroughfare which needs their attention, especially that portion far eastward. The work in great part consists in merely clearing out and deepening the gutters. The facilities afforded do not permit any very effective or durable work to be done on the street proper. The question of paving the streets seems to have dropped into the limbo of such projects. In this matter the city has retrograded, since, long ago, Fayetteville street was paved with chippings from the granite cut for the Capitol. This fact is not, however, generally known, the primitive pavement having been concealed from sight. The plan of putting the streets in passable condition, by means of a durable pavement, meets with violent opposition, on account of its cost. But when all things are counted up, it appears strange that the present and future benefits of the plan do not outweigh other considerations.

The Fall and Winter Fashions.

Detroit Free Press.

Francis F. Lane, of Bridgeport, Ct., shot himself because a young lady of that city would not marry him. He asked her on Sunday night last and shot himself when refused. This indicates what the fall and winter fashion will be in rejections. Last season it was the correct thing to shoot or carve the young lady when she declined the honor, etc. The new styles are much more becoming and are destined to be popular. It is to be hoped that all such soft-headed young men will continue in the good work.

Lumsden has a grocers' scoop that is made of extra heavy tin and has an iron handle to it, with a sharp point for breaking and loosening sugar, etc., when it becomes hard in the barrel. It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Diseases. The Primary Cause of a Distant Symptom.

Nervousness is rarely a disease in itself inherent, but is the final offspring of dyspepsia in a majority of cases. The nervous disturbance is at first trifling but ultimately its parent so undermines the general health as to produce consequences very threatening to that great nervous centre, the brain. Hostetter's Stomach Bitters is the most powerful medicinal opponent of the ravages of indigestion, and protects the nervous system from them The tremors, the unnatural anxiety, the headaches, the sleeplessness and loss of appetite which characterizes dyspeptic irregularity and weakness, and which are almost invariably accompanied by an uncertain condition of the bowels and inactivity of the liver, are all eradicated by this matchless corrective and when nervousness does not proceed from the cause designated it affords most grateful relief.

THE COMMUNITY owe Dr Giles of New York, a debt of gratitude for the discovery and introduction of his Liniment Iodide Ammonia and Pills. Gout Rheumatism, enlarged joints, Piles, Costiveness, Diseased Liver, Headache Female troubles, are all cured by their use. B. A. MITCHELL, Wholesale Druggist, London, Ontario.
